Ukrainian

Russian

Experience

2019-2021

PNU University, Ukraine, Ivano-Frankivsk, The team for creating an online timetable

UI/UX Designer

While studying at the university, I participated in the creation of an online timetable for all university students. I was a member of a small team that implemented an online bot on JavaScript in the Telegram messenger, which is very popular in Ukraine

- Creating a keyboard layout interface for user interaction with bot functions
- Fetching data from API
- Implementation of the search for the lesson schedule by date, its presentation in an easy-to-read format, text formatting
- Implementation of authorization for students and teachers
- Maintaining code and bug fixing

2020

Freelance

Full-stack developer

I helped a friend create an assistant bot in the Telegram messenger, which allowed him to automate his small online business selling disposable e-cigarettes

- Setting up a database for product storage, creating an admin panel
- Integration of online payment systems such as Easy Pay, Qiwi
- Preparation of the price list

2022 - now

PB Foods, Delight Wedlinka, London,
284 Mitcham Rd, London, SW17 9NT
